

Marked improvement in Wrinkle Assessment Score (WAS) at all time points through 25 months

- Sculptra®Aesthetic (injectable poly-L-lactic acid) produced an improvement in WAS that was shown to last up to 25 months^{1,2}
- Change in evaluator WAS²

WAS: 0 = no wrinkles; 1 = just perceptible wrinkles; 2 = shallow wrinkles; 3 = moderately deep wrinkles; 4 = deep wrinkles; 5 = very deep wrinkles, redundant fold.
CosmoPlast (human-derived collagen) is a registered trademark of Inamed Corporation.

- A statistically significant change in mean WAS^{1,2}
- The only facial injectable approved by the FDA to work gradually and last up to 25 months¹
